The Latest Information to Keep YOU Informed

Dear Members

As you know, the provincial government has made several announcements regarding upcoming changes to the education sector. These announcements include; changes to offsite programs for ASD students, increases to the number of students in our classrooms, requisite online learning, and funding cuts.

We are also anticipating further announcements in the weeks to come.

As EAs and CYWs these changes to the education system will impact us differently than other staff. Please be advised that we will be providing detailed information regarding these announcements and their impact on you, our members, in a few weeks time, once these announcements have run their course.

Other unions may be hosting information sessions at school sites. You may choose to attend and hear the details shared however, we caution you from getting too swept up in what other unions may be saying to their members about these announcements at this time. As this is a bargaining year, each union will have its own agenda and message for its members.

Please do not hesitate to contact the EAA office should you have any additional concerns or questions in the interim.

In solidarity,
EAA Executive
